Job Type

Faculty

The Institute of [Molecular](#) and Cellular [Biology](#) (IMCB) in the College of Life Science at National Taiwan University (NTU) invites applications for a tenure-track faculty position at the Assistant Professor level or above. Applicants must have an earned Ph.D. degree and at least one-year post-doctoral experience. We seek candidates pursuing innovative research in plant molecular biology or plant cellular biology. The successful candidates are expected to (1) teach undergraduate and graduate courses in related disciplines; (2) develop and perform extramurally funded research; and (3) carry out the academic service responsibilities. This tenure-track faculty position begins from August of 2023. Information about the IMCB at NTU is available at <http://cell.lifescience.ntu.edu.tw/english/index.htm>.

Applicants should submit a combined PDF document, including a cover letter addressing qualifications and the desired position, **a CV**, **a teaching statement**, **a research plan**, and reprints of representative publications within the most recent five years, by email to Ms. Ya-Ling Wei (ntuclsimcb@ntu.edu.tw). Three confidential letters of reference should be sent from referees by email to ntuclsimcb@ntu.edu.tw. Complete application materials should be received by August 31, 2022.

The Molecular and Cellular Biology Institute at National Taiwan University invites applications for a faculty position in plant molecular biology or plant cellular biology.
